

International speaker, Master of Bio-Energetic Medicine and Quantum Field visionary, Dr. Sue Morter teaches the retraining of the nervous system and subtle energy system of the body through a process called Embodiment. Through her Energy Codes® seminars and retreats, and her BodyAwake™ video series, she illuminates the relationships of quantum thoughts, energy medicine and healing through the re-patterning of the nerve impulse through the body by use of the mind and deep breath work. She retrains the brain, shifts old memory patterns and then teaches us how to move beyond the brain for sustainable healing. She holds yoga, meditation and self healing retreats in Bali, Peru, the Mayan Riviera in Mexico and across the US.

Dr. Sue is internationally published, is seen in many documentary films and serves on professional licensing and human service boards globally. She has received many outstanding achievement awards in the field of Transformational Leadership.

She is founder and visionary of the Morter Institute, an organization committed to teaching individuals self-healing techniques and a new approach to life based on Quantum Science, the elevation of consciousness and life mastery. She also founded Soulful Science Productions, a production company focused on providing support for autistic and differently-abled children through guided meditation and affirmations.

She draws from her experience as a doctor for over 30 years, inspiration from a life-changing awakening during meditation, and her personal passion for cracking the code of life itself. Her greatest joy is sharing her discoveries with others.
