Mavis Pittilla has been a medium for over forty years. She has experienced amazing facets of spiritual reality. Her journey began in 1966 when she saw

a male figure build up in her living room. At the time she was seriously ill with three months to live. This experience and the pursuit of spiritual healing dedicated her to a lifetime of Spiritualism working around the world. Throughout the years she has been witness to physical mediumship in a way unlikely to be seen again. She has seen recognizable figures build from ectoplasm, she has received apports as well as watching them develop in these physical circles. Through the trumpet she has heard direct voice and also has experienced levitation and astral travel. A trance medium herself, she has sat with many trance mediums and helped in their development. Her great passion is teaching whether it be the fundamentals or advanced mediumship. The author of the book *Mavis with Spirit*, she has recorded numerous CDs including *'The Spirit Within'*. She has appeared in several television programs and films. Mavis has been made a honorary faculty of the prestigious Arthur Findlay College in the U.K. For further information visit www.mavispittilla.com

We will look at how we can blend our minds with the Spirit World to prove to those living that their loved ones are still alive in another world and physical death is not the end. You will be shown how it is possible to receive real and clear impressions from those who have gone before us. We will look in detail at how we can stimulate the clairvoyant faculty so we can use it to bring messages from the other world.

Through deep visualization and entering into the altered states of the mind it is possible to see the other world clearly. Becoming aware of and building a relationship with those that guide us is a vital step in helping us to journey in our minds to the other world. You will receive powerful affirmations and sacred mantras that will aid your quest to “see the world unseen”.

Please note that all workshops will be conducted on-board while we are at sea and not in port.
